

Product Certified

Formaldehyde Emission Classifications

The Engineered Wood Products Association of Australasia Ltd. certifies that

Carter Holt Harvey Woodproducts Australia - Myrtleford

PO Box 299, MYRTLEFORD VIC, 3737

Mill Number 333

holds the following formaldehyde emission classifications based on the results of laboratory tests conducted over the last six months by the Engineered Wood Products Association of Australasia :

Product	Bond Type	Class
Plywood	A Bond	Super E0

Simon Dorries
EWPAA General Manager
Date of Issue : 31-Mar-11

Classification Limits - Super E0 <= 0.3mg/L, E0 <= 0.5mg/L, E1 <= 1mg/L, E2 <= 2mg / L.

The Super E0 classification is an industry limit and does not appear in any Australian or New Zealand Standards. This certificate is valid on the date of issue. To view the current list of EWPAA certifications held by this organisation, please visit the EWPAA's on-line register at <http://www.ewp.asn.au/register>.
